

Recent Trail Work by BMTA Volunteers

We recently started posting updates regarding our dedicated trail maintainers' accomplishments on Hiking Project and All Trails. This will benefit BMTA members As well as other hikers. We worked seven BMT segments covering about 20 miles during the TN and GA March 16, 2024, work trips.

We invite you to join us on future work trips. More rain, more briars, and more brush soon will be on the BMT thereby needing more frequent trail work by more maintainers.

BMT: Segment 14b-14c (TN 68 to Unicoi Gap) Benton MacKaye trail maintainers cleared April 5, 2024.

BMT: Segment 13e (Wildcat Creek to FS 22b) Benton MacKaye trail maintainers cleared March 30, 2024.
