Notice to Hikers in the Fontana Area

Section 19d

Immediate Fontana Village Vicinity

TVA has notified the BMTA they intend to close the BMT between Fontana Village Lodge and Route 28 **effective July 11th** for their powerline upgrade.

This is a closure of only 0.6 miles, and hiker can simply follow the Woods Road from the Lodge 800 feet, then turn east on Welch Road for 1000 feet to reach the BMT at the east end of the village.

Although the TVA says this closure could last thru October, it seems unlikely.

Further work may close the BMT east of that point.

Best advice to hikers is to take the Fontana Shuttle from Fontana Lodge to Fontana Marina, or vice versa during these closures.

Signs will be posted.
